WHEELER & WILSON'S

IMPROVED

FAMILY SEWING MACHINES.

PRICES GREATLY REDUCED.

PRICES GREATLY REDUCED.

OFFICE, No. 205 BALTIMORE-ST.

BALTIMORE.

A reduction in the prices of SEWING MACHINES is announced in our advertising columns. Their utility is established beyond question, and at the present prices we see no reason why they should not be found, as they ought to be, in every household. Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the WHEELER & WILSON MACHINE FOR FAMILY USE, and for manufactures in the same range of purpose and material. During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. IN EVERY CASE THE WHEELER & WILSON MACHINE HAS WON THE HIGHEST PREMIUM. We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri and California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond and San Francisco. At the Fair of the St. Louis Mechanical Association, the Examining Committee was composed of 25 Ladies of the highest social standing, who, without a dissenting voice, awarded for the WHEELER & WILSON MACHINE THE HIGHEST AND ONLY PREMIUM, A SILVER PITCHER, valued at $75. If these facts do not establish a reputation, we know not what can.—*Christian Advocate and Journal.*

DIAGRAM OF THE LOCK STITCH MADE BY THIS MACHINE.

This is the only stitch that cannot be ravelled, and it presents the same appearance upon each side of the seam. It is made with two threads, one from each side of the fabric, and interlocked in the centre of it.

KERCHNER,

No. 7 St. Paul Street,

Sign of Big Boot,

Wholesale and Retail Manufacturer of

Gentlemen's Boots, Shoes

AND GAITERS,

Invites the attention of the public to his extensive assortment of DRESS, FRENCH CALF, and PATENT LEATHER BOOTS, SHOES, AND GAITERS, all manufactured by himself in the latest French styles, of the very best materials, and for sale at the very lowest prices.

Persons troubled with tender feet, and who find it difficult to get fitted, are particularly requested to call, as by a particular method of taking measure he is enabled to fit those whose feet are covered with CORNS or BUNIONS, and to please the most fastidious.

Drawings taken of the feet, and a pair of lasts kept expressly for each customer, by which means the Boots fit as easily when first put on as they usually do when half worn out.

Strangers leaving their measure when in the city, can have their Boots made and sent to any part of the United States.

He prides himself upon making really good articles, and will suffer none others to leave his store.

J. H. MURDOCH, 102 Hanover Street,

Professor and Master of all styles and kinds of SALESMANSHIP AND COLLECTING, whether for stationary or traveling purposes, of and for each and every kind and extent of business.

Professor M. can readily refer, as he is most noted, such as may not know him and his capacities, really to thousands of the oldest, wealthiest and most distinguished wholesale, as also retail, gentlemen and firms, and banking and other gentlemen, in most of the United States and the near British Provinces, to show that he was long at least one of, if not the most able, successful and best paid of any such on this continent at least, he having, (per written agreement for a term of years,) got $8,000 per year, that is, in salary and interest upon it, and expenses paid and stated privileges. He has certificates from hundreds of such persons in many parts of the United States, etc., (including from very many such in Baltimore, of course,) that he has at least no superior at all in those capacities, and that he has all the indipsensable elements or qualifications, and most evenly and harmoniously combined and balanced, too, for such purposes. Such instruction is both an entirely new, and truly, a most indispensable feature, in this age of great progress, and rivalry, and lightning go-aheadativeness in many, if not all or most things; and he *will* greatly excel (a standing principle with him) in everything, it matters not what, he undertakes. What he not simply believes, but *knows* as truth, he should not, and don't, put under, but upon the bushel, and light all around.

Business men and parents can have truly No. 1 Agents, Drummers, Salesmen, or Collectors, or all together, made out of their favorite, or promising, or may be, even, less favorable clerks, or children, or the latter themselves can so have themselves made.

What's called the best made better, the poorest train'd to be
Much better, or, maybe, even to the mastery.*

☞ Due notice will be given through the papers of the time the above is to commence.

*That is, even such as are very generally *called* the best made better.

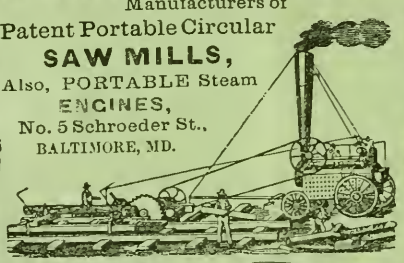
GEORGE PAGE & CO.,
Manufacturers of
Patent Portable Circular
SAW MILLS,
Also, PORTABLE Steam
ENGINES,
No. 5 Schroeder St.,
BALTIMORE, MD.



We are the original inventors and patentees of a mode of running CIRCULAR SAW MILLS, that experience has proved to be the only plan by which lumber can be successfully sawed from the log with a Circular Saw.

We trust that as inventors of this principle, which has added much to the industrial wealth of our country, we will receive that patronage which we feel the merits of our invention deserves, and that all gentlemen will avoid purchasing from those who attempt to evade our patent.

Our Saw Mills are at least one-third stronger, and are capable of doing more work, and in every respect better than any others made. We make them of three sizes, suited as well for the wants of the largest lumbering establishment as for the smallest plantation, with prices to correspond.

We build STATIONARY AND PORTABLE STEAM ENGINES of all sizes and finish that cannot be surpassed, also HORSE POWERS FOR COTTON GINS, GRIST MILLS, etc.

MAYNARD & NOYES,

BLACK

WRITING INK.

Manufacture Established 1816.

The quality of this Ink has been *tested for more than* FORTY *years*. During this time, it has constantly increased in public favor and patronage, and is now the leading article in the country. The Proprietors annex a few of many Testimonials received from parties who have *used it for more than a quarter of a century*, and whose opportunity and qualifications for judging correctly of its merits will not be questioned.

REGISTRY OF DEEDS OFFICE, BOSTON, January 10, 1859.

MESSRS. MAYNARD & NOYES, Gentlemen: I am glad that longer use of your Writing Ink enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, *and my oldest records are as legible and black as when first written.* This rare quality for permanence, renders it invaluable for State and County Records and all mercantile purposes, where it is important that the writing should remain legible and unchanged in color by the lapse of time.

HENRY ALLINE, Register of Deeds.

BOWDOIN PUBLIC SCHOOL, Boston, January 7, 1857.

MESSRS. MAYNARD & NOYES, Gentlemen: I have used your Ink in the Writing Department of this School the past thirty years, and take great pleasure in renewing my testimonial of its superior quality. It flows freely from the pen, its color is brilliant and permanent, and it combines all the necessary and desirable qualities of good Ink.

JAS. ROBINSON, Writing Master.

The following extract of a letter from a well known and long established Bookseller in Dover, N. H., is like many others often received, and will be found to express the opinion and correspond with the experience of a large number in the business.

After trying various kinds of Ink, most of my customers come back to yours. I am tired of the miserable compounds offered every little while, pretending to be superior to all other Inks, and will have nothing further to do with them. I have used your Ink on my books over twenty-six years, and my customers can see how it stands against time. Entries made in 1832 are as fresh as those made during this year.

Dover, N. H., October 16, 1858. E. J. LANE.

The following Testimonial from Dr. Chilton is added as a supplement to any of his previous tests.

From experiments instituted by me, in 1855 and 1856, and repeated within the past six months, I am fully satisfied that Maynard & Noyes' Writing Ink is entitled to the pre-eminence it has always sustained for Legibility and Permanence of color.

New York, May 11, 1858. JAMES R. CHILTON, M. D., Chemist.

The above popular Ink, together with BLUE, RED, CARMINE and COPYING INK, WRITING FLUID and INK POWDER, is for sale by the principal Booksellers, Stationers, and Paper Dealers in Baltimore.

JAMES H. MURDOCH, M. D., and Professor and Demonstrator of Human, Physiology, Meteorology, Medicine, Climatology, Hydropathy, all kinds of Bathing, Sweating, etc., etc., etc , will give due notice through the papers of the time he will open his INSTITUTE for the most thorough Demonstration and the most rigid and habitual application of the Natural Laws or Laws of Health and Life of Mankind, etc., for the Preservation, or rather the prolonging of Health and Life very greatly, or at the very least, the Cheeking, or to those who really prefer it, the moderate or most extreme Production or Aggravation of DISEASE, it matters not by what name or names any other Physician or person or yourself may or will call it.

N. B.—Professor M's mode of treatment is not a deceiving, etc., etc., etc., but truly the most honorable, humane, practical, speedy and certain, and only such plan, as incredible as it may appear to most persons or the uninitiated.

Dr. M. most certainly has had in every possible way, not only the most thorough, terrible, and costly experience personally for many years in all the schools of medical practice and in every other possible way, but by having watched such constantly and most carefully, and by the most intense study, extreme expenditures, etc., etc., has equal KNOWLEDGE of and for such.

This treatment will give the very greatest possible strength and comfort and energy of body or mind, or both of body and mind or mind and body, and success, fame, good looks, happiness, and of course, all their great bases—health, life, and longevity.

This Seminary of Learning, instituted for the liberal education of Young Ladies, was created a College proper by the Legislature of Maryland, December session, 1849, with authority to confer degrees, and endowed with all the rights and privileges of the most favored female institutions.

There are two departments in the Institution—the COLLEGIATE DEPARTMENT and the PREPARATORY DEPARTMENT, with their appropriate branches of learning. The course of study in each is three years, designated by as many different classes.

COURSE OF INSTRUCTION.

The course of instruction is intended to develop the intellectual, social and moral faculties; and by imparting a thorough, practical, accomplished and christian education, fit the pupil for the faithful discharge of the responsible duties that await her in life.

Great pains will be taken to promote intellectual advancement, by rendering the acquisition of knowledge pleasant, and by training the pupil to correct habits of thought and reflection.

The proper exercise of the social feelings will be encouraged by inculcating whatever belongs to refined manners and dignified courtesy in our intercourse with others; while reading, recitations and expositions from the Bible, will familiarize the mind with the truths of our holy religion, and imbue the heart with right principles of action, and rules for the government of life.

The accommodations for boarders have recently been increased by the erection of an additional story on the main edifice, and a new building, 60 feet long, and five stories high, with chemical hall, painting and reading rooms, bath rooms, &c.

The Institution takes rank with our oldest and best Seminaries, and enjoys a liberal patronage from the city of Baltimore, and from the Middle, Southern and Western States.

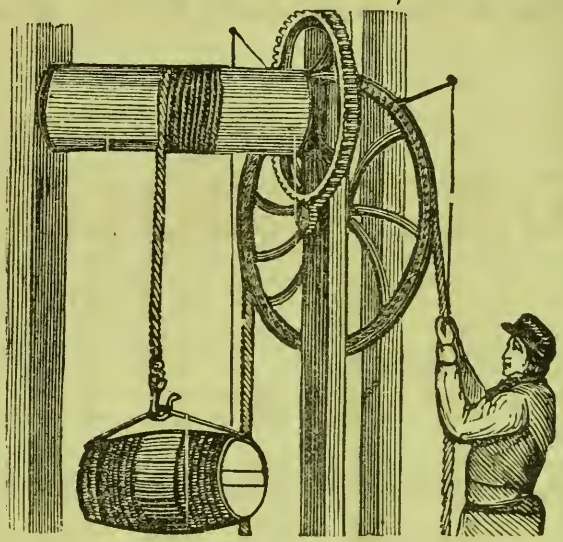
BALTIMORE,

Manufacturer of a superior quality of SOAP, which possesses extraordinary cleansing properties. It is manufactured by a new and simple process, known only to himself. Having had more than twenty-five years experience in his profession, he conceived the idea of simplifying the process of Soap making, and after more than eighteen months assiduous application in study, labor and experiment, has succeeded in producing an article which will rival, in quality and price, all other Soap.

N. B.—Chemical, Olive, Eagle, Plain, and Fancy Soap, for common washing and toilet purposes, constantly on hand and for sale.

BATES'
HOISTING MACHINES
ON STRICTLY SCIENTIFIC PRINCIPLES, FOR WAREHOUSES.

BEST AND



CHEAPEST!

The Subscriber having been engaged in this business for the last twelve years, in connection with his Iron Foundry, will guarantee a better Hoisting Machine for less money than can be produced in this city. Every merchant and owner of a warehouse will save the expense in a short time, to say nothing of the safety of his goods in being hoisted some sixty or eighty feet above his head. I would refer to some of the principal merchants in Baltimore and elsewhere, for whom I have put up these Hoisting Machines. The wheels are in use, and can be seen daily at work.

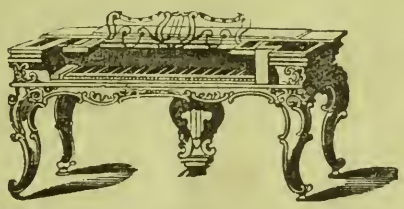
HENRY GAEHLE,



MANUFACTURER OF

GRAND AND SQUARE

PIANO FORTES,

N. E. Cor. of Fayette and Eutaw-sts., And Nos. 15, 17 & 19 N. Eutaw-st.,

BALTIMORE,

Would respectfully invite the attention of his friends and the public, to the large assortment of Grand and Square Pianos constantly on hand at his Warerooms, and which, for volume of tone, easiness of touch, elegance of finish, and durability of construction, are surpassed by none in the world.

My improved Cross String Piano Fortes, particularly, securing a richness and volume of tone heretofore seldom attained in a Piano, have not failed to obtain that patronage which their superior quality so justly deserve.

Having bought the large Factory and Warerooms, the extensive stock of finished and unfinished Pianos, lumber and other materials, of the late firm of Wm. Gaehle & Co., I am now in possession of the best facilities for the manufacture of Piano Fortes, and having passed, myself, through a practical course in the art of making a Piano, in all its branches, under the personal instruction of the well known Piano maker, the late Henry Gaehle, (my father,) of the late firm of Knabe, Gaehle & Co.; also employing the most skillful workmen, selected from the principal journeymen of the late firm of Knabe, Gaehle & Co. and Wm. Gaehle & Co., and superintending personally all the different departments, my patrons may rest assured that not only a good, but the very best Piano will be furnished by me, at the lowest price, and on terms which cannot fail to suit.

To attain additional strength, all my instruments are furnished with full metallic plates and every Piano sold is warranted for the term of five years.

My personal attention is given to the selection of Instruments, and a privilege of exchange is granted at any time within six months from day of sale, should such instrument fail to give full satisfaction.

All orders entrusted to my care will meet with prompt dispatch.

Pianos exchanged or hired. Tunings done promptly by persons of experience and capacity.

MARSTERS'
AMBRO-DAGUERREIAN
SALOON,

147 Lexington-st., between Howard & Eutaw.

Mr. Marsters, being extensively known as one of the most successful Artists of Baltimore, deems it unnecessary to say anything by way of self commendation; this style of advertisement may be indulged in by those who need it. He is content to refer to the pictures with which, for the past *twelve years*, he has been supplying his patrons, and which may be found in every quarter of the world—in almost every house in this city: and also to the numerous specimens on exhibition at his rooms; which all testify abundantly to the character of his workmanship, whether it regards correctness of portraiture, position, finish, or durability.

Mr. Marsters prides himself on keeping pace with all the improvements of the day. He is always prepared to execute any style of picture, from the life size oil portrait to the tiniest miniature, *on all kinds of material.*

Copies of Paintings, Prints, Statuary, and old Daguerreotypes, may be magnified, and finished in Oil or Water Colors.

His large and scientifically arranged sky light, with the very best of instruments and appurtenances, enable him to produce *good pictures instantly*—even while moving.

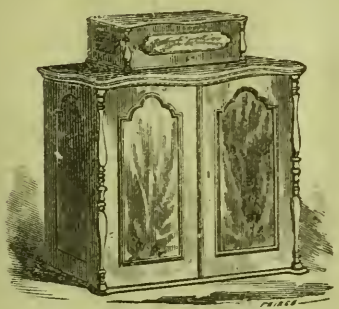
MANUFACTURERS OF

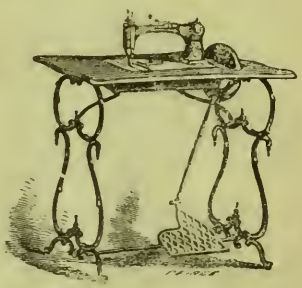
IMPROVED TIGHT STITCH

SEWING MACHINES,

FOR FAMILIES

AND MANUFACTURING ESTABLISHMENTS.





The Proprietors of these Machines claim, (and substantiate the claim,) that their instruments *will execute any and every kind of needlework*, and perform the same in the best possible manner. Combining, as it does, the merits of all the old machines, and, at the same time, avoiding their faults, it commends itself to the public as *the great Family Sewing Machine*, and as adapted to *every branch of industry* where the needle is required.

They will stitch, hem, fell, bind, and gather. They make a strong lock stitch, that cannot be raveled or pulled out. They make a beautiful, uniform stitch, alike on both sides of the work, without forming ridges underneath.

The Machines have great strength, are perfectly simple, and the management of them easily acquired.

Any spool of *cotton, thread or silk*, may be used without re-winding. They are almost *noiseless* in their operation, and *will wear longer* than any other Sewing Machine extant.

Let Manufacturers, Planters, Farmers, Housekeepers, or any other persons in search of an instrument to execute *any kind of sewing now done by machinery*, *make sure they secure the best*, by examining ours before purchasing.

Sir

We call your attention as well as that of business men generally to our fac-simile circulars.

The ease and dis-patch with which these can be produced, at the rate of One or two hundred copies in a few hours after receipt of the order, at prices less than in Type-work, require but to be made known to be generally adopted in cases where com-mon printing is now made use of.

Please call and ex-amine our specimens of Weekly & Monthly Statements, Circulars &c.

PREFACE.

In submitting the present volume of Woods' Baltimore City Directory, the publisher takes pleasure in pointing to the unerring evidences of the City's prosperity, which is indicated by the large increase in names compared with that of last year. The difficulties and embarrassments of compiling a Directory have been descanted upon and explained until the repetition of them has become tiresome. The method pursued in collecting and arranging the names is such, that an error should hardly occur, and yet it must inevitably happen that some will be found, although they will be fewer in this than in any heretofore issued.

The Directory is published to meet the wants of a large class of the citizens. To meet this want—to produce a work which will promote the convenience, and be of service to the business community—where the compilers have a correct knowledge and experience in their calling, we think it will be admitted that they have a right to expect a fair amount of support in their undertaking from those who derive benefit from its publication. Our experience, however, has shown that a number of those who use a Directory, and profit by it, are more willing to participate in the benefits arising from its publication than they are to contribute their portion to reimburse the publisher for the labor and outlay he expends in its preparation.

In looking for names in the Directory, many mistakes occur, and errors are attributed where none exist, from not knowing the proper mode of spelling the name looked for. The similarity in the sounds of names of different orthography, leads to innumerable blunders.

The Business Directory will be found to be a valuable improvement on former issues, and cannot fail to be appreciated by business men.

While thanking our subscribers for their increased liberality, we regret to be compelled to add a word or two of complaint. We regard it as exceedingly strange that our business men, notwithstanding their proverbial tact and shrewdness, will permit themselves to be so frequently imposed upon by ephemeral and worthless publications, claiming to be "Business Directories," or what not, gotten up by adventurers, without character or permanence, and not containing any information that may not be better procured in the pages of our issue. We can substantiate the assertion, that in no instance has the entire city been canvassed for information of this kind, except by the publisher of this work.

We take pleasure in presenting to the citizens our Street Directory, showing the odd and even numbers on the corners, or right and left hand crossings of the several streets in the city. Many of the new streets recently opened are not properly or legally named—others have no sign boards on them, rendering it difficult to make this part of the work as perfect as it would otherwise be.

This work was commenced the latter part of last January, and was to have been published by the first of May. After canvassing three weeks, we had to stop on account of a

bill relative to numbering the houses being introduced before the City Council, which was not finally acted upon until the middle of June. We immediately recommenced our labors, being subjected to the additional trouble and expense of *canvassing afresh all the ground that had been gone over.*

Our earnest desire has been to produce a work worthy of the interest of the community at large, and make it a faithful reflex of the business enterprise and commercial greatness of Baltimore, encouraged as we have been by the largely increased subscription list, to persevere in our labors, it shall be our endeavor, in every succeeding annual issue, to introduce such improvements as shall render it still more necessary and useful to its patrons, and an indispensable guide to citizens and strangers.

In closing these remarks, the publisher would express his thanks for the uniform courtesy extended to his canvassers during the progress of the work; the prompt and ready acquiescence exhibited by the different public officers in furnishing information, and the valuable assistance rendered by numerous friends are warmly appreciated.

WOODS'
STREET DIRECTORY,

INCLUDING

STREETS, AVENUES, LANES, ALLEYS, COURTS, WHARVES, &C.

IN THE

CITY OF BALTIMORE.

COMPILED EXPRESSLY FOR THIS EDITION.

EXPLANATION.—If you wish to find the location of any house, for instance, 71 N. CHARLES-ST., on consulting the Street Directory, (see CHARLES N.) you will observe 55 is on the N. E. corner of Charles and Saratoga-sts., hence the desired No. 71 will be between Saratoga and Pleasant-sts. right hand. Or, if you are going up Charles-st. and wish to take a cross street so as to call, for example, at 103 Park-st., examine the numbers on the corners of Park-st., (see PARK, Street Directory,) and you will find 95 on the corner of Park and Centre, then by counting four houses you arrive at the desired No. 103, right hand.

Entered, according to Act of Congress, in the year one thousand eight hundred and fifty-nine, by John W. Woods, in the Clerk's Office of the District Court of Maryland.

RATES OF POSTAGE.

LETTERS composed of one or more pieces of paper, but not exceeding half an ounce in weight, sent any distance not exceeding 3,000 miles, 3 cents; over 3,000 miles, 10 cents. Double rate if exceeding half an ounce, treble if exceeding an ounce, and so on, charging an additional rate for every additional half ounce or fraction of half an ounce.

All letters between places in the United States must be pre-paid, either by postage stamps, or stamped envelopes.

Letters dropped in the post office, for delivery in the same place, 1 cent each.

Letters advertised are charged 1 cent each, besides regular postage. Drop letters are not advertised.

CIRCULARS, 1 cent for 3 oz. or less, to any part of the United States, to consist of but one piece of paper—pre-payment required by stamps.

Daily newspapers weighing three ounces or less, 45½ cents per quarter, when sent from the office of publication to actual and bona fide subscribers any where in the United States. Transient newspapers sent any where within the United States, 1 cent for three ounces or less.

All transient printed matter, (including circulars.) must be pre-paid by stamps.

For postage on other printed matter see table of rates.

When the article to be mailed is a circular, pamphlet or newspaper, it should be so enveloped as to be open at one end—otherwise it will be charged as a letter.

OCEAN STEAM NAVIGATION.

The following rates of postage on letters have been agreed upon between this government and the German States, Prussia, &c., (by Bremen steamers.)

Bremen, 10 cents; Oldenburg. 13; Austrian Empire, (including Hungary, Galicia, Lombardy and Venice,) Bavaria, Brunswick, Hamburg, Hanover, Mecklenburg, Schwerine and Strae-litz, Kingdom of Prussia, Kingdom of Saxony, and Saxe Attenburg, 15; all other German states, cities and towns, 22 cts.; Switzerland and the Netherlands, 25 cts.; Denmark and Schleswig, 25; Poland and Russia, 29; Constantinople, Greece and Sweden, 33; Norway, 38—pre-payment optional.

Alexandria, Corfu, 38 cents; Island of Malta, Wallachia, 30; Italy, (except upper part,) 33—pre-payment required.

Newspapers and circulars, 3 cents each to be pre-paid.

Mails to the Pacific.—For a single letter, not exceeding half an ounce in weight, to Chagres, 20 cents; to Panama, 20 cents; to California and Oregon, 10 cents—pre-payment required.

Havana Mails.—A line is established between Charleston and Havana, and between New York and Havana, the postage being 10 cents on a single letter not exceeding half an ounce in weight, with an additional 10 cents for each additional half ounce, or fractional excess of half an ounce, to be pre-paid. Postage on each newspaper to Havana, 2 cents, also to be pre-paid.

BRITISH POSTAL ARRANGEMENTS.

On letters to British North America, 10 cents, if not over 3,000 miles; if over that distance, 15 cents, a single rate—pre-paid or not at the option of the sender.

Letters posted or charged in the United States will be rated at a half ounce to the single letter, over a half and not exceeding an ounce, as a double letter, and so on.

The single rates to be charged on each letter posted in the United States addressed to any place in Great Britain or Ireland is 24 cents, the double rate 48 cents—over an ounce and not exceeding two ounces, as a quadruple letter, and so on, each ounce constituting two rates.

Said postage on letters going to any place in Great Britain or Ireland, may be pre-paid, if the whole amount is tendered at the office in the United States, where mailed, at the option of the sender.

Newspapers may be mailed at any office in the United States to any place in the United Kingdom, on the pre-payment of 2 cents, and may, on receipt from any place in Great Britain or Ireland, be delivered at any office in the United States, on payment of 2 cents.

Note.—Each Government is to charge 2 cents on each newspaper. These are to be sent in bands or covers, open at the sides or ends, and to contain no manuscript whatever.

FRENCH POSTAL ARRANGEMENT.

A postal arrangement having been entered into between the United States and France, letters for France or Algeria, may be sent in the open mail to France, direct, or through England, by either the U. S, British or French packets, the postage on the same being 15 cents for each ¼ oz. or fractional part thereof. Pre-payment optional.

Persons mailing letters to foreign countries, with which the United States have not entered into postal arrangements, are reminded that it is necessary for them to pre-pay the proper postage, or the letters cannot be forwarded.

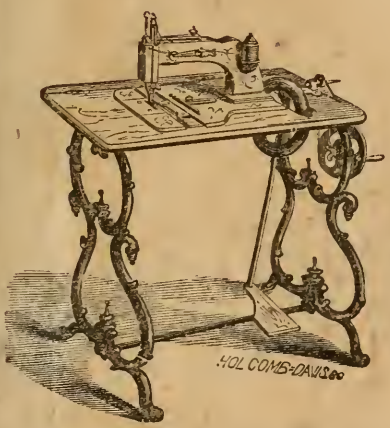
SEWING MACHINES,

202 BALTIMORE STREET,

Opposite Hamilton Easter & Co's,

BALTIMORE.

WM. H. WALMSLEY, Agent.



The following will show the Superiority of our Machines over all others.

Letter received from J. D. Ghiselin, Esq., our agent in Norfolk, Va.

MESSRS. LADD, WEBSTER & CO. NORFOLK, 1858.

GENTLEMEN: For a few days past we have been holding our "Seaboard Agricultural Fair," at which are represented, besides our own Sewing Machines, those of Wheeler & Wilson, Grover & Baker, and Singer. The Report of the Committee on Sewing Machines was to have been made on Tuesday last, when the parties representing Singer and Grover & Baker came forward and protested against the Report being made, on the ground that the Committee were prejudiced in favor of our machine.

A new Committee was accordingly mutually agreed upon, consisting of three entirely disinterested persons, (as, indeed, was the first Committee,) and all of them scientific and practical men. I have the pleasure to announce that, after a very faithful investigation, they awarded us the only premium that was given. Accompanying please find the Report.

Very respectfully, yours, J. D. GHISELIN, JR.

"The Awarding Committee on Sewing Machines respectfully Report, that after a close and careful examination of the principles, construction, and operation of the various Sewing Machines on exhibition, and taking into consideration the character of the various stitches made by them, and also the relative advantage and freedom from complicity, and consequent freedom from liability of derangement and breakage, award the premium to LADD, WEBSTER & CO."

WM. P. WILLIAMSON, Chief Engineer U. S. Navy,
